# TRANSWASH H.D.

## ALL PURPOSE PRESSURE CLEANING DETERGENT

### PLANT MAINTENANCE

**Transwash HD** is excellent for wiping down or spraying machinery and heavy equipment. It readily removes heavy oils, greases, carbonaceous soils and is ideal for general purpose industrial maintenance cleaning operations.

### TRUCK, BUS AND VEHICLE MAINTENANCE

**Transwash HD** cleans exterior surfaces quickly and easily without loss of paint reflectance or damage to decals and is excellent for wiping down interior plastic surfaces. **Transwash HD** is highly effective in steam guns or high pressure pumps for removing road dirt, exhaust stains and grease.

### PLEASANT AND EASY TO USE

An easy to handle liquid, **Transwash HD** can be used undiluted as received, or mixed with water or Stoddard's solvent. **Transwash HD** is gentle enough to permit contact with the skin, but rubber gloves should be worn by those working with **Transwash HD** for long periods.

### SAFE TO USE

**Transwash HD** will not corrode or deteriorate fabrics, plastic, rubber, aluminium alloys, magnesium, steel or other common metals.

### NON TOXIC

**Transwash HD** does not give off noxious fumes or odours, is safe to use inside enclosed work areas, rinses easily with cold water, and does not create waste disposal problems.

### DIRECTIONS FOR USE

#### Machinery & Equipment

Heavy contamination of oil and grease: steam cleaning concentration should be adjusted to give 2½% by volume at nozzle (1 part in 40). Where **Transwash HD** is applied by a low pressure spray and then steamed off, concentrations are recommended between 1 part in 10 or 15. Apply **Transwash HD**, leave soak for up to 4 minutes, then remove. Extremely dirty work may initially require treatment with **SDC** prior to cleaning with **Transwash HD**.

**Transwash HD** may be used on painted surfaces, aluminium, magnesium and decals, without danger of dulling or attack. It is best to clean in shaded areas, out of the direct sunlight. If the surface tends to dry before rinsing, reapply **Transwash HD** before the pressure rinse.

**DIRECTIONS FOR USE (continued)****Steam Cleaning and High Pressure Pump Cleaning**

**Transwash HD** is an excellent liquid steam cleaner and does not develop strong fumes or odours. Use about 1:5 dilution in the steam cleaner reservoir. **Transwash HD** is also ideal for cleaning with high pressure pumps.

**Tank or Immersion Cleaner for Small parts**

Use approximately a 1:3 dilution in the tank and heat to about 49°C. Small parts may be immersed for cleaning supplemented by hand scrubbing with tampico or similar brushes if desired. **Transwash HD** is mild and non toxic. It may be used in any area of the plant or maintenance shop without danger of injury to personnel.

**Cleaning Walls, Painted Surfaces and Floors**

Apply **Transwash HD**, diluted with up to 20 parts of water, depending on conditions, to the surface to be cleaned with a brush or cloth. Rinse with water or wipe dry with a clean cloth.

**Transwash HD** is ideal for cleaning concrete, wood, vinyl, linoleum and ceramic tile floors. Its mild yet powerful cleaning action, removes heavy industrial soils from these floors without injury to the floor itself.

**PACKAGING**

Packed in 25 litre P.D. and 200 litre PSD. Non hazardous

**CAUTION**

May be harmful if swallowed.  
Avoid prolonged contact with skin and eyes.  
**KEEP OUT OF REACH OF CHILDREN.**

**WARRANTY**
